Dear Mr. Baricevic,

We are writing to you to thank you personally, as well as the Jasenice district, for your support and clear decision that you will not allow the construction of a dolphinarium in your area and support any kind of sea mammals captivity projects.

Your decision deserves a public commendation because it not only proves your care for animals but also your responsibility about the correct development of the local community. You certainly serve as an example to other local communities and build a reputation of Croatia regarding her commitment to protection of cetaceans.

We wish you lots of success in realization of building an aquapark and we thank you once more for not having captive animals in it.

Best regards,

Luka Oman
