Your Excellency,

I am writing to you in regard to the coming start of commercial seal hunt in 2008 and to urge you to use your influence and good will to protect the seals and stop their slaughter, which is against the will of most of Canada's citizens who consider it as something shameful for Canada.

Because of their fur and/or with the fishery industry's excuse that seals reduce the fish population, Canada also in the year 2008 plans to allow the slaughter of hundreds of thousands of baby seals, many of them will even be skinned alive or will die trapped under the ice after being injured.

It is not a solution to turn a blind eye on the documented cases of clubbed and wounded seals being left to suffer; neither it is a solution to ignore the protests all over the world. Therefore I am asking you to support a complete halt on the seal slaughter.

Thank you and best regards,
