

People for the Ethical Treatment of Animals (PETA) and Animal Friends Croatia (AFC) share the same goal of getting the animal rights message out to as many people as possible. PETA is proud to have worked closely with AFC for more than a decade on a number of hard-hitting campaigns designed to draw attention to issues affecting animals. We support AFC's work to help prevent animals from suffering and dying on factory farms, in the fur industry, in laboratories and in bullfights and other forms of "entertainment" and encourage others to join AFC in its efforts to improve the lives of all beings.
